

BIOGRAPHIES

Via focuses on bringing a high level of IT management and all-round experience to companies that may have little or limited IT experience on hand. We seek to minimize the cost to the client by identifying quick wins, better use of existing technology, industry benchmark and technology directions.

Via differs from the majority of consultancy firms in that it brings a small team of experts together who have worked in business themselves and know the challenges faced by business. They include:

JOE HUSSEY, PRINCIPAL CONSULTANT

A senior business and technology manager and consultant with thirty years experience across many blue chip companies, Joe has gained experience in every aspect of IT and technology. He served on the Board of CNH Capital (a FIAT company) as their European IT Director and has implemented many major technology implementations over his career, conducted many successful business reviews and has specialized in the sourcing and delivery of key IT and business solutions.
